Santosh Makne

Software Engineer — ASP.NET Core — Angular — SQL Server

+91-9307097319 santoshmakne33@gmail.com LinkedIn

Professional Summary

Software Engineer with **3.1+ years of experience** building scalable enterprise web applications using **ASP.NET Core, Angular, Web API, and SQL Server**. Experienced in developing microservices, REST/SOAP APIs, backend optimization, and multi-tenant systems. Strong understanding of software architecture, Entity Framework, and enterprise application development in Agile environments.

Technical Skills

Backend: ASP.NET Core, ASP.NET Core MVC, Web API, C#, Entity Framework Core/EF6, LINQ, Microservices
Frontend: Angular, TypeScript, JavaScript, HTML, CSS
Database: SQL Server, Stored Procedures, Query Optimization
Cloud/DevOps: Azure (Basics), Docker, CI/CD (GitHub Actions)
Concepts: SOLID Principles, Repository Pattern, REST APIs, Layered Architecture, Dependency Injection
Tools: Git, GitHub, Jira, Postman

Professional Experience

Software Engineer **Feb 2024 – Present**

Tyler Technologies, Pune

- Developed and enhanced backend services using **ASP.NET Core** for Electronic Filing systems supporting multi-state court workflows.
- Worked extensively on **Microservices**, including the Document Service, implementing new features, resolving production issues, and improving service reliability.
- Designed and developed the **Notification Service** from scratch to support email and system notifications across multiple applications.
- Implemented new features, performed bug fixes, and delivered enhancements for microservices while collaborating with cross-functional Agile teams.
- Built and maintained **REST/SOAP APIs**, optimized database operations using Entity Framework Core, LINQ, and SQL Server, and followed SOLID principles and clean architecture.
- Worked with **Docker** for containerizing services during development and deployment workflows.

Software Engineer **Sep 2023 – Feb 2024**

AnAr Solutions Pvt. Ltd., Pune

- Worked on a **layered ASP.NET Web API application** with Business and Data Access layers.
- Developed REST APIs using **Repository and Service patterns** with Entity Framework and SQL Server.
- Integrated Angular frontend with backend APIs and contributed to bug fixing and enhancements.

Key Projects

Electronic Filing Manager (EFM)

- Developed backend APIs and business services for multi-state electronic court filing workflows.
- Worked on Document Service microservice, implementing new features, bug fixes, and performance improvements.
- Optimized SQL queries and Entity Framework operations to improve application performance and reliability.

Admin Console & Notification Management

- Developed Angular-based administration modules and backend APIs for notification configuration and system management.
- Implemented feature enhancements, API versioning, and multi-tenant support while collaborating with Agile teams.

Notification Service (Microservice)

- Designed and developed a standalone notification microservice using ASP.NET Core to manage email and system notifications.
- Implemented configurable notification workflows, REST APIs, and integrated the service with multiple applications.
- Delivered new features, enhancements, and production bug fixes while ensuring scalability and maintainability.

Certifications

– Microsoft Certified: Azure Fundamentals
– AWS Certified Cloud Practitioner

Education

B.Sc. Computer Science **2019 – 2022**
College of Computer Science and IT, Latur
